Data imports relevant to Special Education:

Enrollment History Import Wizard This import wizard will allow user to select any previous enrollments for students that need to be imported into the new district database.

First Steps is Kentucky's early intervention program that provides services to families with children, age's birth to 3 who have developmental disabilities. This program receives federal funds under the Infants and Toddlers section in Part C of the Individuals with Disabilities Education Act (IDEA). The IDEA also funds programs for preschool and school age children ages 3 through 21 with disabilities under Part B of the Act.

☐ Do Not Print

OPTIONS/ACTIONS CONSIDERED AND REASONS FOR THE DECISIONS: Complete all applicable sections based on the purpose of the meeting. Explain why the ARC proposes or refuses to take action, providing documentation for the reasons for those decisions in the sections below, in the notes section, and through appropriate attachments.

Eligibility/Continued Eligibility: Document the ARC decision regarding the determination of the student's eligibility for special education and related services and reasons for the decision on the appropriate Eligibility Determination form(s). (Note: For Multiple Disabilities, complete a separate form for each underlying disability category.)

***Date of Eligibility Determination** Student does not have an educational disability requiring special education and related services. ☐

Primary Disability Student does not meet eligibility criteria for an additional disability. ☐

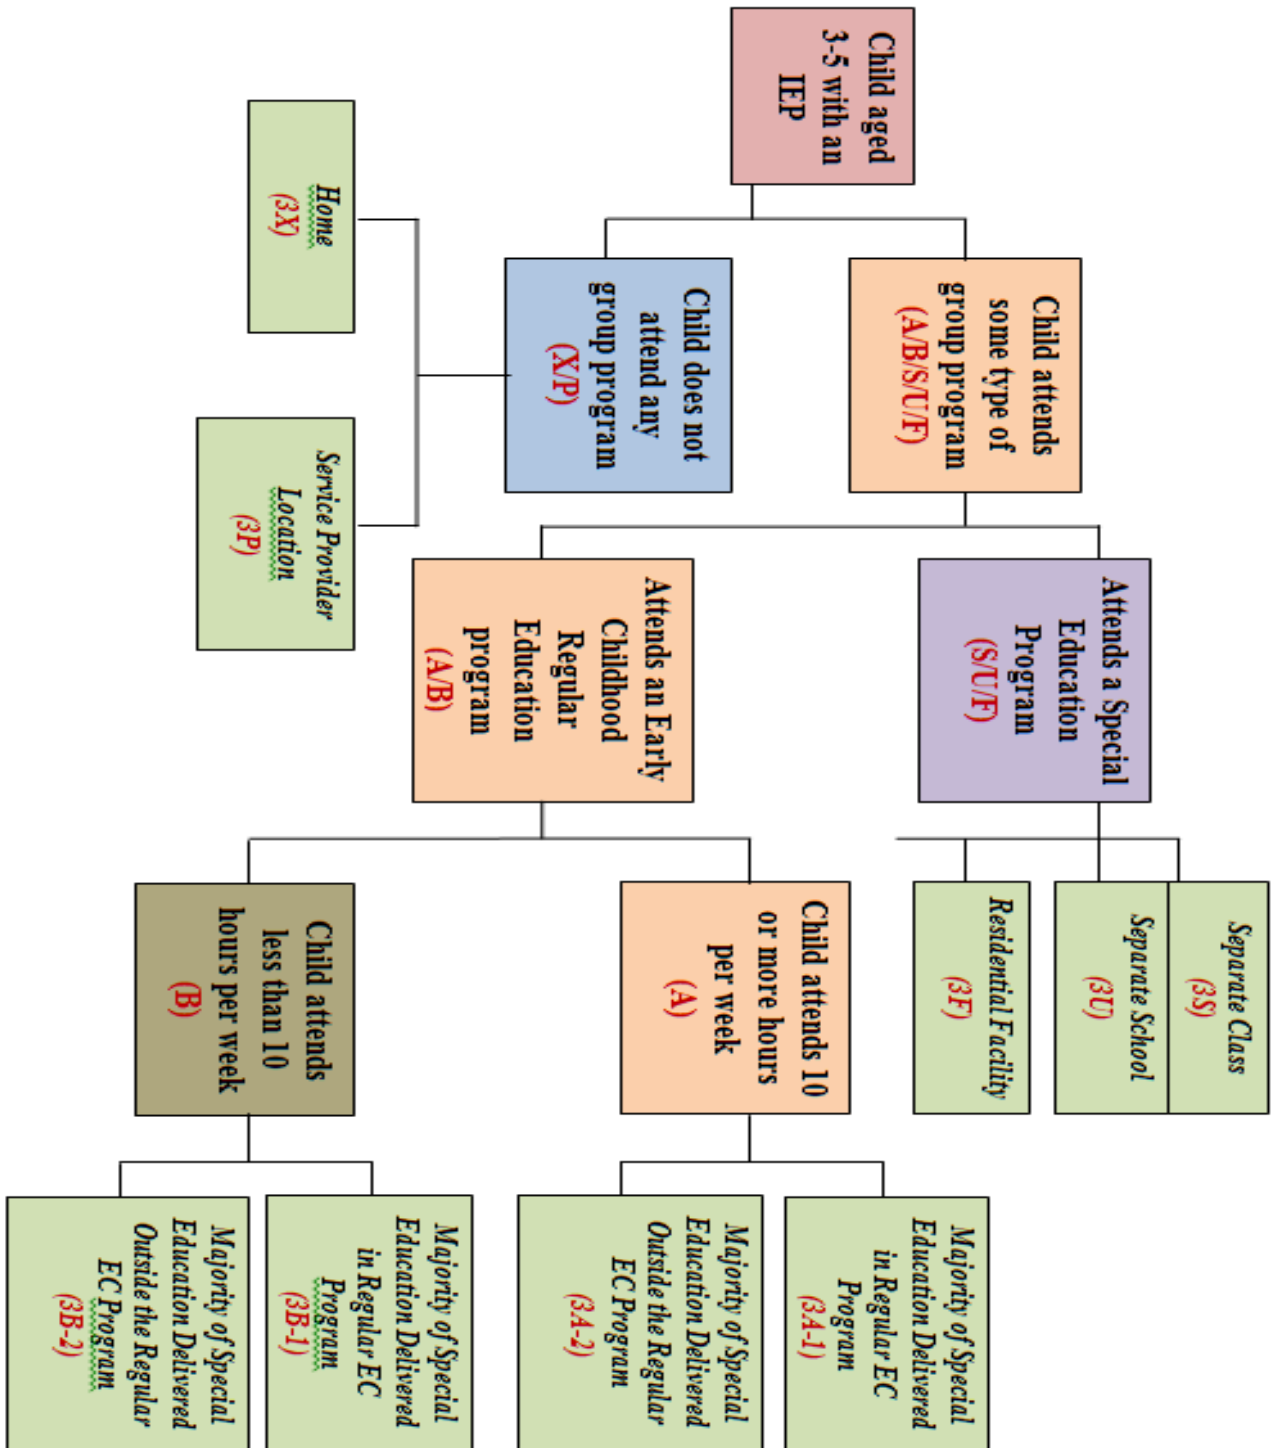

For students identified as Multiple Disabilities document the underlying disabilities below:

Underlying Disability (A)	Underlying Disability (B)
Underlying Disability (C)	Underlying Disability (D)

Notes:

- Change Enrollment Start Date to reflect the date the student begins receiving services, i.e., the start date of the KYIEP
- Deselect State Exclude Option

If student is found 'Not Eligible', end date the enrollment, as of the evaluation date OR the start date of enrollment and end status = C01. Then mark the student's Special Education Status as N: Not Eligible. This should also be documented on the Conference Summary.

Clarification of Placement Codes for ages 3-5

- 1) By **March 1**, annually a district will determine if its preschool program for the following school year is a *Regular Early Childhood Program* or a *Special Education Early Childhood Program*. This determination is based on the answer of these two questions:
 - a. Is the early childhood program designed for typically developing same aged peers?
 - b. Are the majority of the children ages 3 through 5 currently enrolled in the preschool program (after the January-February supplemental 3 count) children without IEPs? (*This count includes all children ages 3 through 5 including any kindergarten child who was 5 years old as of October 1 of the current school year.*)
- 2) If the district can answer yes to **both** of these questions, its preschool program is defined as a Regular Early Childhood Program until March 1 of the following school year the next time it makes its annual determination, otherwise the program is defined as a Special Education Early Childhood Program.
- 3) The district reports this Program Determination on its Annual Performance Report on June 30.
- 4) LRE Settings should be based on the Program Determination described above in effect on the date of the ARC.
 - a. For Districts that have determined their Preschool Program is a *Regular Early Childhood Program*, the LRE Settings for children ages 3 through 5 will typically be either **3A1, 3A2, 3B1, or 3B2**.
 - b. For districts that have determined their Preschool Program is a *Special Education Early Childhood Program*, the LRE Settings for children ages 3 through 5 will typically be either **3S - Separate Class, 3U - Separate School or 3F - Residential Facility**.

EXCEPTIONS:

If a district has determined its program is a *Regular Early Childhood Program* **but** a child is placed in a classroom for the majority of their day where **75% or more** of the children in that classroom are children **with** an IEP, the LRE Setting for this child shall be reported as a **3S - Separate Class**. When a district has determined its program is a *Special Education Early Childhood Program* **but** a child is placed in a classroom for the majority of their day where **75% or more** of the children in that classroom are children **without** an IEP, the LRE Setting for this child may be reported as either **3A1, 3A2, 3B1, or 3B2** based on the amount of time the child attends the program per week and where the majority of special education services are provided as described above in item 4.

NOTE: LRE Settings do not change once IEP is created, locked and saved regardless of Program Determination.

General Instructions for Determining the Appropriate Placement

With the December 1, 2010 Child Count, the Individuals with Disabilities Education Act has changed the settings designated for children and youth with disabilities ages 3-5. Below is listing of the new placement options.

1. The first factor to consider is whether the child is attending a Regular Early Childhood Program as defined below:

A **Regular Early Childhood Program** is a program that is designed for typically developing children ages 3-5 and is not specifically or primarily designed for children with disabilities and includes (*at the time of the placement decision*) a majority of at least 50 percent of nondisabled children (i.e., children without an IEP). This may include Head Start; Kindergarten, Preschool classes, private kindergartens or preschools, and group child development centers or child care.

If a child is attending a Regular Early Childhood Program, s/he is to be reported in one of the boxes labeled **3A1**, **3A2**, **3B1**, or **3B2**.

Children attending a Regular Early Childhood Program are classified into two sub-categories.

3A: Those attending a Regular Early Childhood Program at least 10 hours per week and **3B:** Those attending a Regular Early Childhood Program less than 10 hours per week.

If the child attends a Regular Early Childhood Program **at least 10 hours per week**, the child must be reported as to whether s/he is receiving the majority of their special education and related services in the Regular Early Childhood Program (**3A1**) or in some other location (**3A2**).

If the child attends a Regular Early Child Program for **less than 10 hours per week**, the child must be reported as to whether s/he is receiving the majority of their special education and related services in the Regular Early Childhood Program (**3B1**) or in some other location (**3B2**).

2. If the child is NOT attending a Regular Early Childhood Program, then it must be determined if the child is attending a **Special Education Program (C)** or receives services through some alternative option. A Special Education Program is a program designed specifically or primarily for children with disabilities ages 3-5 and includes less than 50% nondisabled children. Special Education Programs include separate special education classrooms in regular school buildings; trailers or portables outside regular school buildings; child care facilities; hospital facilities on an out-patient basis; and other community based settings. Other Early Childhood Special Education Programs include Separate Schools and Residential

Facilities that are designed specifically or primarily for children with disabilities ages 3-5.

If a child attends a Special Education Program in a class intended primarily for children with disabilities and does not also attend a Regular Early Childhood Program, report this child as a Special Education Program – Separate Class **(3S)** placement.

If a child attends a Special Education Program in a day school designed specifically for children with disabilities and does not also attend a Regular Early Childhood Program, report this child as a Special Education Program – Separate School **(3U)** placement.

If a child attends a Special Education Program in a residential school or residential medical facility on an inpatient basis and does not also attend a Regular Early Childhood Program, report this child as a Special Education Program – Residential Facility **(3F)** placement.

3. If a child is not attending either Regular Early Childhood Program or a Special Education Program, then you must select the category of program that best represents the specific environment in which the child receives the majority of their special education and related services. These **Other Environments (3X/3P)** include either the **Home (3X)** or a **Service Provider Location (3P)**.

If a child receives their special education and related services in the principle residence of the child's family or caregivers, and does not also attend either a Regular Early Childhood Program or a Special Education Program provided in a separate class, separate school, or residential facility, report this child as a Home **(3X)** placement.

If a child receives all of their special education and related services in a Service Provider Location or some other location that is not in any other category, and does not also attend either a Regular Early Childhood Program or a Special Education Program and also did not receive special education and related services in the home, report this child as a Service Provider Location **(3P)** placement. A Service Provider Location would include services provided in a private clinician's offices, clinician's offices located in school buildings and hospital facilities on an outpatient basis. This includes students who come to the school for speech services only and do not meet the criteria for attending either a Regular Early Childhood Program or a Special Education Program.

Affect on the Involvement and Progress in the General Curriculum: within domain areas listed below, the ARC documents how the disability affects the student's involvement in and progress in the general curriculum.

Communication Status: includes performance in the areas of voice, fluency, receptive and expressive language (includes pragmatics), and speech sound production and use. This includes any means (e.g., speech, sign language, augmentative communication) by which a student relates experiences, ideas, knowledge, and feelings to others.

Academic Performance: describes the level of development or achievement and how the student applies his/her learning in one or more of the following areas: basic reading skills, reading comprehension, reading fluency, math calculation, math reasoning, written expression oral expression, listening comprehension. The description may include strategies applied in learning and preferred learning styles

Health, Vision, Hearing, Motor Abilities: include information regarding the student's relevant health or physical needs. This information is typically provided through screening information and by health care providers, including physical and occupational therapists.

Social and Emotional Status: includes functional performance information about the student's social skills, interpersonal behavior, personal skills, self-related behaviors, sensory self-regulation, emotional behavior, organization and executive skills, environmental access/mobility skills, and independent living skills.

General Intelligence: includes information about the student's aptitude, knowledge application, thinking, memory, reasoning and problem solving skills.

Transition Needs: focuses on the needs related to the student's planned course of study. By the age of 16, the focus is also on the transition services which assist the student in reaching postsecondary goals. Transition needs must include one or more of the following:

- Instruction
- related service
- community experience
- development of employment
- post school adult living objectives
- acquisition of daily living skills, if appropriate
- Functional vocational evaluation.

Functional Vision/Learning Media Assessment: For a student who is blind or visually impaired, the ARC evaluates the student's reading and writing skills; needs related to learning; and appropriate reading and writing media including consideration of the future need for instruction in Braille and use of Braille.

Special Factors Editor:

Special Factors
Consideration of Special Factors for IEP Development: (The ARC MUST address each question below and consider these issues in the review and revision of the IEP.)

Does the child's behavior impede his/her learning or that of others?
☐ Yes ☐ No
If **Yes**, include appropriate strategies, such as positive behavioral interventions and supports in the Statement of Devices/Services below.

Does the child have limited English proficiency?
☐ Yes ☐ No
If **Yes**, what is the relationship of language needs to the IEP?

Is the child blind or visually impaired?
☐ Yes ☐ No
If **Yes**, the IEP Team must consider:

- Is instruction in Braille needed?
☐ Yes ☐ No
- Is use of Braille needed?
☐ Yes ☐ No
- Will Braille be the student's primary mode of communication?
☐ Yes ☐ No
(See evaluation data for supporting evidence.)

Does the child have communication needs?
☐ Yes ☐ No
If **Yes**, specify below:
☐ See Present Levels for Communication Status
☐ Other (Specify):

Does the child's behavior impede his/her learning or that of others? If a child's behavior impedes his or her learning or that of others, the ARC develops strategies, including positive behavioral interventions, to address the behavior.

Does the child have limited English proficiency? For a child with limited English proficiency, the ARC describes the language needs as related to the student's IEP.

Is the child blind or visually impaired? For a child who is blind or visually impaired, the ARC uses an evaluation of the student's reading and writing media (including an evaluation of the child's future needs for instruction in Braille), to determine the need for instruction in Braille and the use of Braille.

Does the child have communication needs? For students with communication needs, the ARC addresses the student's language and communication needs in the areas of stuttering, impaired articulation, language impairment, voice impairment, delayed acquisition of language, or an absence of language.

Is the child deaf or hard of hearing?
☐ Yes ☐ No

If **Yes**, the IEP Team must consider:

- The child's language and communication needs; Describe:
☐ See Present Levels for Communication Status
☐ Other (Specify):
- Opportunities for direct communications with peers and professional personnel in the child's language and communication mode, academic level and full range of needs; Describe:
- Any necessary opportunities for direct instruction in the child's language and communication mode. Describe:

Are assistive technology devices and services necessary in order to implement the child's IEP?
☐ Yes ☐ No

If **Yes**, include appropriate devices in the Statement of Devices/Services below.

Statement of Devices/Services: If the ARC answers Yes to any of the questions above, include a statement of services and or devices to be provided to address the above special factors.

- ☐ See Specially Designed Instruction
- ☐ See Supplemental Aids and Services
- ☐ See Behavior Intervention Plan
- ☐ Other (Specify):

Is the child deaf or hard of hearing? For a child who is deaf or hard of hearing, consider the student's language and communication needs, opportunities for direct communication (with peers and professional personnel) in the student's language and communication mode.

Are assistive technology devices and services necessary in order to implement the child's IEP? For students who may need assistive technology the ARC must determine the type(s) of device(s) and/or amount of services needed. The ARC documents the assistive technology in the IEP, and indicates the type of service in the "Statement of Devices/Services" box below.

Statement of Devices/Services: This box provides a summary and link to the location of the services identified based on the student's special factors.

Method(s) of Measurement: Select from template bank the evaluation method in which the student's progress toward reaching the annual goal will be measured.

- Curriculum Based Measurement
- Direct Measures
- Indirect Measures
- Authentic Assessment

Specifically Designed Instruction: Select from template bank “**what the teacher does**” to instruct, assess, and re-teach the student. The SDI describes what the teacher does, as appropriate, to adapt the content, methodology, or the delivery of instruction. SDI is based on peer-reviewed research to the extent possible.

NOTE: 2011 KY 16+ IEP will have a prompt to indicate the linkage between annual goals and postsecondary goals:

For the IEP to be in effect by the child's 16th birthday and thereafter: This annual goal will reasonably enable the student to meet the student's postsecondary goal in the area(s) of:

☐ Education/Training ☐ Employment ☐ Independent Living

ARC must determine which postsecondary goal, (as written on the transition page of the IEP), the annual goal supports.

Reporting Progress Editor:

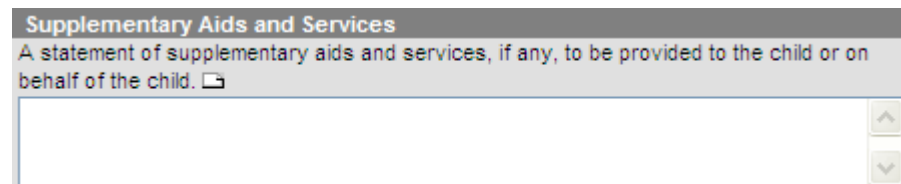

Reporting Progress

☐ Concurrent with the issuance of Report Cards

☐ Other, specify [Text Box]

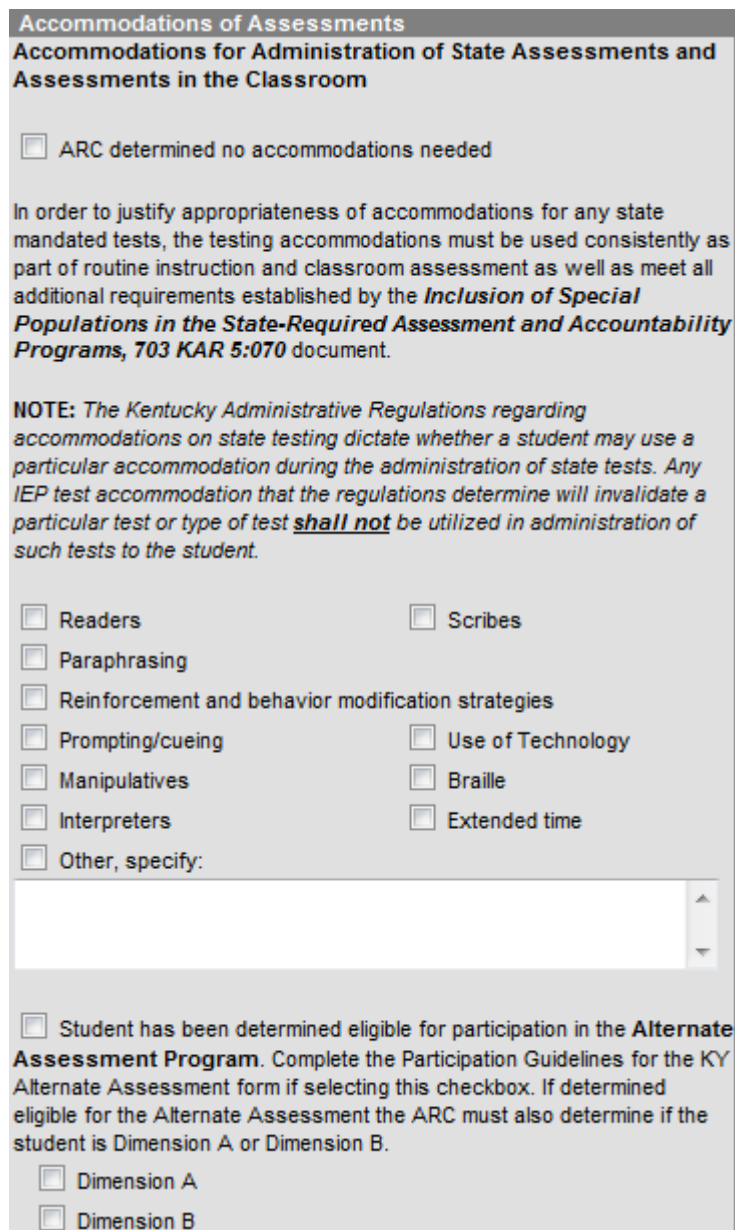

The ARC informs the parent of if they will be informed of student progress toward the goal concurrent with the issuance of report cards OR the ARC may identify another means of reporting progress toward the goal.

Supplemental Aids and Services Editor:

The screenshot shows a software window titled "Supplementary Aids and Services". Below the title bar is a text area containing the instruction: "A statement of supplementary aids and services, if any, to be provided to the child or on behalf of the child." followed by a small icon. Below this text area is a large, empty rectangular box for input, with up and down arrow buttons on its right side.

Enter in text box **“what the student needs”** in order to advance appropriately toward attaining the goal(s) and be involved and make progress in the general curriculum, to participate in extracurricular and other nonacademic activities, and be educated and participate with other students with and without disabilities. SAS includes strategies, aids, and services.

Accommodations of Assessments Editor:

The screenshot shows a software window titled "Accommodations of Assessments". Below the title bar is a subtitle: "Accommodations for Administration of State Assessments and Assessments in the Classroom". Below the title is a label "Program Modifications/Supports for school personnel that will be provided:" followed by a checkbox labeled "Not needed at this time". Below the checkbox is a large, empty text area with a vertical scrollbar on the right side.

The ARC identifies program modifications and supports for school personnel that are to be provided on behalf of a student to meet the unique needs of the student. This may include specialized training, use of school time, or user of school staff, and may involve specialized training for any staff that comes in contact with the student.

Least Restrictive Environment:

The screenshot shows a form titled "Least Restrictive Environment". Below the title is a label "LRE and General Education:". Kentucky Administrative Regulations: 707 KAR 1:370

- A private school child with a disability does not have the individual right to receive all of the special education and related services that he/she would receive if enrolled in a public school.
- A private school child with a disability may receive a different amount of services than children with disabilities enrolled in public schools. These services are specified on a Service Plan, not an IEP.
- When a parent decides to place his child with a disability in a private school after the district offered a free and appropriate public education the district is not required to pay for the cost of the private education.
- Parents may file a state-level complaint if the district failed in its responsibilities to evaluate and determine eligibility for private school children with disabilities. Parents may not file state-level complaints on other IDEA issues, such as failure to provide services contained in a Service Plan.
- Services provided to a private school child with a disability may be provided at a site determined by the district.
